
Soft Touch Matte Film Effect

**Soft Touch Matte Film Effect
for a smooth, pleasing,
luxurious finish — available as
a compound or additive.**

Summary

Ampacet Soft Touch Matte films give consumer products a smooth, pleasing, luxurious finish, whether it's part of the package or the product itself. The softness resonates with consumers, conveying premium quality and comfort. That's especially relevant in products for feminine care, babies, cosmetics, personal health and premium priced merchandise. For disposable clothing, Soft Touch adds softness and better draping properties.

Soft Touch Matte is available as a compound that can be used 100% in an outer or mono layer film, or blended in the outer layer or mono layer film structure with color or other resin.

Soft Touch natural additive swatches are also available at 20% and 30% LDR.
